Healthful Curcuminoids From Turmeric Roots

Bioprotectant Anti-inflammatory/ Antioxidant;
Immune Support

Curcumin, a flavonoid, is the product obtained from turmeric, the ground rhizomes of *Curcuma longa* L. Curcumin has also been reported to possess a wide range of healthful uses in traditional Indian (Ayurveda, Unani, and Siddha) systems of health care. GRAS determination is Curcumin C³ Complex[®], a standardized extract of turmeric (dried rhizome of *C. longa* L) where the extract contains curcuminoids (curcumin, bisdemethoxy curcumin and demethoxy curcumin) of a minimum total of 95% curcuminoids.
